# Beijing Facilitators

# Annual Work Report of 2016

## Summary

Translation volunteer: Shang Liu

The year of 2016 was the fifth year of the period covered by Beijing Facilitators' 3rd Five-Year Strategic Plan. In this year, Beijing Facilitators has achieved the 3rd Five-Year strategic goals and constructed a strategic service system of "service innovation-research advocacy-professional support". As a result, Beijing Facilitators has completed its transformation into a professional organization with the combined multiple specialist

functions of service provision, advocacy and support.

In the past year, Beijing Facilitators has altogether undertaken 977 service-related activities. These included services to assist people living in difficulty, services to promote community development aimed at helping the integration of new citizens in urban communities, and professional supportive services aimed at local social workers and social organizations (NGOs). As well as this, we undertook research projects of relevant topics. In total, the Facilitators provided services directly benefiting people a total of 34,985 times.

In 2016, underpinned by the 13-year experience of children service provision, Beijing Facilitators created the Dream Catchers brand and established three Dream Catchers children's comprehensive community service centers, in Haidian District, Dongcheng District, and Chaoyang

District respectively. Setting up these centers has enabled us to provide high-quality community educational services for children living in difficulty. In addition to direct services in the communities, we also supported the development of social organizations (NGOs) and social work profession. Beijing Facilitators continued to work with two organizational support centers entrusted by Dongsi Street Office and Dongfeng Street Office, as well as the operation and management of the city-level social organization support center contracted by Beijing Civil Affairs Bureau. Thereinto, Beijing Facilitators was contracted by the Beijing Office for Social Group Management to develop and run Beijing Social Organization Development Service Center. The Center operated on a non-governmental basis and carried out certain service-related and administrative functions transferred by Beijing Civil Affairs Bureau. These functions included the annual reviews of social organizations, incubating social organizations, and allocating resources. This was also an important move by Beijing Civil Affairs Bureau, stepping up its transformation of government functions and moving forward to find new ways of regulating the services of social organizations.

In 2016, Beijing Facilitators was contracted by organizations and bodies including Beijing chapter of the All China Women's Federation (ACWF), Social Work Committee of Dongcheng District, Social Affairs Office of Dongcheng District, and the Capital Charity Federation to undertake supportive monitoring and evaluation for 54 government procurement projects run by social organizations.

In 2016, entrusted by the National Committee for the Standardization of Social Work, Beijing Facilitators has participated in drafting *Community Social Work Services Guide* to set industry standard. The Center for Leadership Network Matrix, Save the Children, and the Facilitators jointly produced the *Code of Conduct for Children Voluntary Organizations*. We worked with several organizations to carry out the "Beijing Social Organizations Honesty and Trust Construction" program,

initiating *Beijing Social Organizations Honesty and Trust Construction Proposal*. Besides, we cooperated with the Philanthropy and NGO Support Center and Beijing Lezhi to finish the *Report on Status Quo of the Development of Supportive Social Organizations in Beijing* and *Report on the Inter-connected Development of Social Organization Incubation Bases in Beijing*.

December 27th, 2016 witnessed the registration and founding of Qingdao Facilitators. This is another successful replication of "the model of Facilitators" after the founding of Nanjing Facilitators and Zhuhai Facilitators. Facilitators in all different regions have been promoting the development of local social work and local social organizations by rooting themselves deeply in local communities, supporting one another passionately and cooperate strategically.

In the past year, Beijing Facilitators was awarded as one of the "Top 100 Social Work Service Organizations of China"and "Best Charity Organization of Beijing". In the "Good people, Good deeds" educational campaign held by Beijing Party Committee Social Work Committee, Beijing Facilitators was listed as one of the "Beijing Society Good People".

The Year of 2016 was the "Year of Organizational Development" of Beijing Facilitators.
